## How to Use this Document

This document describes the different Paths of Magic and Special Items available for The 9<sup>th</sup> Age: Fantasy Battles and as such is to be used in conjunction with the main Rulebook. For convenience, we repeated the main rules related to spells and Special Items from the Rulebook in the corresponding sections below, along with the information needed to read the Paths.

## Paths of Magic

Spells are cast during the Magic Phase. Most spells belong to a specific Path of Magic.

## Spell Properties

All spells are defined by the following 6 properties (see the figure below):

### 1 – Spell Classification

Spells are classified into the different categories Learned Spells, Attribute Spells, and Hereditary Spells by letters or numbers.

### 2 – Spell Name

Use the spell name to state which spell you intend to cast.

### 3 – Casting Value

The Casting Value is the minimum value you need to reach to succeed a Casting Attempt. Spells may have different Casting Values available (see “Boosted Spells”).

### 4 – Type

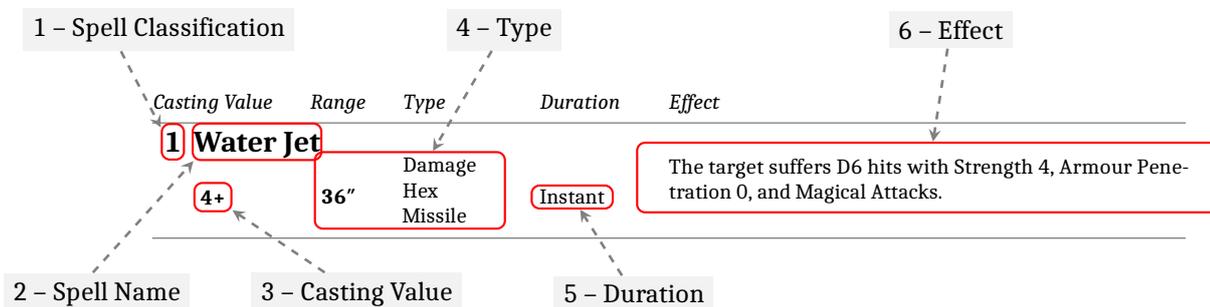

The spell type describes how the spell’s targets have to be chosen.

### 5 – Duration

The duration of a spell determines how long the effects of the spell are applied.

### 6 – Effect

The effect of a spell defines what happens to the target of the spell when the spell is successfully cast. Spell effects are never affected by any effects affecting the Caster, including Special Items, Model Rules, other spell effects, or similar abilities, unless specifically stated otherwise.

Spell Properties as presented in this document.

## Boosted Spells

Some spells have two Casting Values, with the greater Casting Value being referred to as the Boosted version of the spell. Boosted versions may have their type (range, target restrictions) modified, and/or the effects of the spell changed. Declare if you are trying to cast the Boosted version before rolling any dice. If no declaration is made, the basic version for the chosen target is assumed to be used.

The differences between the spell versions are signified by using the following colour coding: <non-Boosted version>, {Boosted version}, and, in some rare cases, <<amplified version>>.

## Spell Classification

All spells are part of one or more of the following categories:

### Learned Spells

All spells labelled with a number are Learned Spells, which are the main spells of a Path. They are usually numbered from 1 to 6, which is relevant for the Spell Selection rules.

Each player may only attempt to cast each Learned Spell once per Magic Phase, even if it is known by different Wizards (unless the spell is Replicable, see below).

## Hereditary Spells

Most Army Books contain a Hereditary Spell, which is labelled “**H**” instead of a number. Hereditary Spells follow all the rules for Learned Spells.

## Attribute Spells

Attribute Spells are labelled “**A**”. All Wizards that know at least one spell from a Path of Magic automatically know the Attribute Spell from that Path if there is any.

Path Attribute Spells are special spells that cannot be cast independently. Instead, the Caster may cast the Attribute Spell automatically each time it successfully casts a non-Attribute Spell from the corresponding Path. This means that an Attribute Spell can be cast more than once by the same Caster, and also by different Casters during a Magic Phase. Attribute Spells cannot be dispelled.

## Replicable Spells

Some Learned Spells are Replicable Spells and are labelled “**rep**”. The player may attempt to cast Replicable Spells multiple times in the same Magic Phase, but each Wizard may only make a single attempt.

## Bound Spells

Some spells are classified as Bound Spells, which follow different rules than the above (see the main Rulebook).

## Spell Selection

- **Wizard Apprentices** know **1 spell** selected between **1** and **H**.
- **Wizard Adepts** know **2 different spells** selected from **1, 2, 3, 4,** and **H**.
- **Wizard Masters** know **4 different spells** selected from **1, 2, 3, 4, 5, 6,** and **H**.

## Spell Types

The spell type describes which targets can be chosen for the spell. Unless specifically stated otherwise, a spell may only have a single target and the target must be a single unit. If a spell has more than one type, apply all the restrictions of each type.

For example, if a spell has the types Direct, Hex, and Range 12”, the target must be in the Caster’s Front Arc, be an enemy unit, and be within 12” of the Caster.

## Augment

The spell may only target friendly units (or friendly models inside units if Focused).

## Aura

This spell has an area of effect. Its effects are applied to all possible targets, according to the rest of the spell types, within **X**” of the Caster. For example, a spell with Augment, Aura, and Range 12” targets all friendly units within 12” of the Caster.

## Caster

The spell targets only the model casting the spell (unless Focused, all model parts are affected).

## Caster’s Unit

The spell targets only the Caster’s unit.

## Damage

The spell may only target units and/or models not currently Engaged in Combat.

## Direct

The spell may only target units and/or models in the Caster’s Front Arc.

## Focused

The spell may only target single models (including a Character inside a unit). If the target is a Multipart Model (such as a chariot with riders and pulling beasts, or a knight and its mount), only one model part may be targeted.

## Ground

The spell doesn’t target units or models. Instead, the target is a point on the Battlefield.

## Hex

The spell may only target enemy units (or enemy models inside units if Focused).

## Missile

The spell may only target units and/or models within the Caster’s Line of Sight. It cannot be cast if the Caster (or its unit) is Engaged in Combat.

## Range X”

The spell has a maximum casting range. Only targets within **X**” can be chosen. This casting range is always indicated in the corresponding column in the spell’s profile. Note that any effects that alter a spell’s range do not affect any other distance specifications that may be part of the spell’s effect.

## Universal

The spell may target both friendly and enemy units (or models inside units if Focused).

## Spell Duration

The spell duration specifies how long the effects of the spell are applied. A spell duration can either be Instant, One Turn, or Permanent as described below:

### Instant

The effect of the spell has no lasting duration: effects are applied when the spell is cast. Afterwards the spell ends automatically.

### One Turn

The effect of the spell lasts until the start of the Caster's next Magic Phase. If an affected unit is divided into several units (the most common example being a Character leaving its unit), each of the units formed this way keeps being affected by the spell effects. Characters that join a unit affected by One Turn spells are not affected by these spells, and likewise, units joined by Characters affected by One Turn spells are not affected either.

### Permanent

The effect of the spell lasts until the end of the game or until a designated ending condition (as detailed in the spell effect) is met. The spell can only be removed by the method described in the spell. If an affected unit is divided into several units, follow the same restrictions as for One Turn spells.

Cosmos

# Cosmology

Chaos

**Duality:** All Cosmology spells are divided into two versions, representing opposing aspects: **Cosmos** and **Chaos**. When casting Cosmology spells, always declare which version of the spell you are using. Whenever the Caster successfully casts a non-Bound Cosmology spell, the next Cosmology spell it attempts to cast has its Casting Value reduced by 1, provided this spell is a Cosmology spell of the opposing aspect.

## Divination

**The Conclave:** Spells from Divination gain +3" range for each additional friendly Wizard within 12" of the Caster. This bonus can never increase the combined modifier beyond +9", however other sources may.

Casting Value	Range	Type	Duration	Effect
<b>A Guiding Light</b>	12"	Augment	One Turn	Discipline Tests of units with all models affected by the spell are subject to Minimised Roll. A unit cannot be affected by this spell more than once per Magic Phase.
<b>1 Know Thine Enemy</b> <7+> {12+}	<18"> {6" Aura}	Augment	One Turn	The target gains +2 Offensive Skill, +2 Defensive Skill, and +2 Agility.

<b>6 Portent of Doom</b> 8+	24"	Hex	Permanent	When calculating Combat Score, a side with units containing at least one model affected by the spell suffers -X to its Combat Score (for each affected unit and instance of the spell), where X is equal to the number of Characters in the unit, increased by 1 if the unit contains any R&F models. A Character leaving a unit that was the target of the spell no longer is affected by the spell, unless the Character was a single model unit that was the initial target of the spell.

## Druidism

**Nature's Call:** All Wizards that know at least one non-Bound Druidism spell know the Learned Spell *The Oaken Throne* in addition to their other spells.

Casting Value	Range	Type	Duration	Effect
<b>A Fountain of Youth</b>	12"	Augment Focused	Instant	The target or its unit <b>&lt;Recovers&gt;</b> <b>&lt;&lt;Raises&gt;&gt;</b> 1 Health Point. This spell can only be cast once per phase.
<b>0 The Oaken Throne</b>		Caster	Permanent	If any friendly Caster is affected by <i>The Oaken Throne</i> , certain spells are cast with an amplified version. Use any text marked with <b>&lt;&lt;&gt;&gt;</b> and ignore any <b>&lt;red text&gt;</b> . Successfully casting <i>The Oaken Throne</i> does not trigger the Attribute Spell. This spell ends if a friendly Caster attempts to cast <i>The Oaken Throne</i> again, or if the opponent removes one dice from their Magic Dice pool at the end of step 3 of any Magic Phase sequence (after Siphon the Veil).
<b>1 Healing Waters</b>	18"	Augment	One Turn	The range of this spell can be measured from the Caster or from any <b>Water Terrain</b> Feature on the board. The target gains Fortitude <b>&lt;(5+)&gt;</b> <b>&lt;&lt;(4+)&gt;&gt;</b> .
<b>2 Master of Earth</b>	18"	Damage Direct Hex	Instant	The range of this spell can be measured from the Caster or from any <b>Impassable Terrain</b> Feature on the board. The target suffers D6 hits with Strength <b>&lt;4&gt;</b> <b>&lt;&lt;5&gt;&gt;</b> , Armour Penetration <b>&lt;1&gt;</b> <b>&lt;&lt;2&gt;&gt;</b> , and Magical Attacks.
<b>3 Entwining Roots</b>	12"	Hex	One Turn	The range of this spell can be measured from the Caster or from any <b>Forest</b> Terrain Feature on the board. The target suffers <b>&lt;-1&gt;</b> <b>&lt;&lt;-2&gt;&gt;</b> Offensive Skill, <b>&lt;-1&gt;</b> <b>&lt;&lt;-2&gt;&gt;</b> Defensive Skill, and <b>&lt;-1&gt;</b> <b>&lt;&lt;-2&gt;&gt;</b> to hit with Shooting Attacks.
<b>4 Summer Growth</b>	24"	Augment	Instant	This spell has different effects depending on the target: <b>Standard Infantry/Beast</b> <sup>1</sup> : Raise <b>&lt;4&gt;</b> <b>&lt;&lt;6&gt;&gt;</b> Health Points. <b>Towering Presence</b> <sup>2</sup> : Raise <b>&lt;1&gt;</b> <b>&lt;&lt;1&gt;&gt;</b> Health Point. <b>Anything else</b> <sup>3</sup> : Raise <b>&lt;2&gt;</b> <b>&lt;&lt;3&gt;&gt;</b> Health Points. <sup>1</sup> More than half of the models in the unit are both Standard Height <b>and</b> either Type Infantry or Beast. <sup>2</sup> More than half of the models in the unit have Towering Presence. <sup>3</sup> Use this if neither of the above applies.
<b>5 Stone Skin</b>	12"	Augment	One Turn	The range of this spell can be measured from the Caster or from any <b>Hill</b> Terrain Feature on the board. The target gains <b>&lt;+2&gt;</b> <b>&lt;&lt;+3&gt;&gt;</b> Resilience.
<b>6 Spirits of the Wood</b>	18"	Universal	One Turn	<b>&lt;(If the target is an enemy unit Engaged in Combat, the spell has no effect. Otherwise,&gt;</b> place a Forest Terrain Feature underneath the target (this can be substituted by placing a marker or the spell card next to the unit). This Forest <b>always</b> extends to the edges of the target's Unit Boundary (even if the unit moves or changes formation). If the target is a friendly unit, it gains Strider (Forest).

## Evocation

Casting Value	Range	Type	Duration	Effect
<b>A Evocation of Souls</b>			Instant	If your Veil Token pool contains less than 3 Veil Tokens, you gain one Veil Token. No more than 1 Veil Token can be gained from this spell each <b>phase</b> .
<b>1 Spectral Blades</b> ⟨6+⟩ {9+}	18"	Augment	One Turn	The target must reroll failed to-wound rolls with its Melee Attacks {and gains <b>Lethal Strike</b> }.
<b>2 Whispers of the Veil</b> 8+	24"	Hex	One Turn	The target suffers -1 Resilience. In addition, a unit with at least one model affected by one or more instances of the spell suffers -1 Discipline.
<b>3 Hasten the Hour</b> ⟨7+⟩ {10+}	⟨24″⟩ {18″}	Damage Direct Hex	Instant	Choose ⟨1⟩ {up to 3 different} models in the target unit (which may be Characters or Champions). Each of them suffers 1 hit that wounds automatically with Armour Penetration 10 and Magical Attacks.

<b>5 Touch of the Reaper</b> ⟨7+⟩ {9+}	⟨24″⟩ {18″}	Damage Direct Hex { <b>Focused Missile</b> }	Instant	The target suffers D3 hits with Strength 10, Armour Penetration 10, and Magical Attacks. When rolling to wound with this attack, use the Discipline of the model that the hit is distributed onto instead of its Resilience.
<b>6 Danse Macabre</b> ⟨6+⟩ {9+}	⟨18″⟩ {9″ Aura}	Augment	Instant	The target may perform a ⟨12″⟩ {6″} Magical Move and gains Ghost Step during this move.

## Occultism

**The Sacrifice:** When casting a non-Bound Spell from this Path, immediately after the casting roll, but before any Dispelling Attempt, the Active Player may choose a friendly unengaged unit within 24" or the Caster's unit. A unit may only be chosen once per phase. The chosen unit suffers X hits that wound automatically with Magical Attacks and with no saves of any kind allowed, where X is determined by the Discipline value of the largest fraction of models in the unit, ignoring all Discipline modifiers. In case of a tie, use the lower value:

- 0 to 4: 3 hits
- 5 to 7: 2 hits
- 8 to 10: 1 hit

Any Health Point loss from The Sacrifice that would remove the last model of the chosen unit as a casualty is discarded. These Health Point losses never cause Panic Tests.

If at least one Health Point loss was caused, the spell is cast with the **«amplified»** version. In that case, use any text marked with **«»**.

Casting Value	Range	Type	Duration	Effect
<b>1 Breath of Corruption</b> <6+> {9+}	<Caster> {12"}	Focused {Augment}	One Turn	The target gains Breath Attack (Magical Attacks, Toxic Attacks). {This spell may only target Characters, Champions, and single model units.} «If the Breath Attack is used as a Shooting Attack, its range is increased to 18"»

<b>5 Marked for Doom</b> 9+	24"	Damage Direct Hex	Instant	The target suffers 1 hit with Strength 10, Armour Penetration 10, Magical Attacks, and Multiple Wounds (D3). «If the target is within 12" of the Caster, choose a single Character or Champion joined to the target unit. **Judgement on High:** When casting non-Bound Spells from this Path, all Magic Dice that result in '1' **must** be rerolled. Dice causing a Miscast cannot be rerolled. If a Caster Miscasts when casting a spell from this Path, add a +1 Miscast Modifier.

Casting Value	Range	Type	Duration	Effect
<b>1 Hand of Heaven</b> <5+> {8+}	24"	Damage Hex Missile	Instant	The target suffers <D6> {D6+1} hits with Strength <D6> {D6+1}, Armour Penetration <2> {3}, and Magical Attacks. Roll once for the Strength and apply this value to all hits.

If a unit fails a Panic Test forced by the spell, it Flees directly away from the marked point (for all other rules, the Caster is considered to be the attacker). The spell then ends, remove all counters.
<b>6 Trial of Faith</b> <7+> {10+}	<24"> {18"	Damage Direct Hex {Focused Missile}	Instant	The Caster rolls D3+1 and the target rolls D3. <b>2 Deceptive Glamour</b> <4+> {6+}	24"	Hex	One Turn	<p>The target suffers &lt;-1&gt; {-2} Offensive Skill, &lt;-1&gt; {-2} Defensive Skill, and &lt;-1&gt; {-2} Agility.</p>

## Special Items

When building their armies, players have the option to individually upgrade the mundane equipment of certain models, usually Characters and Standard Bearers, by buying Special Items for these models. Some Special Items are shared by most armies of T9A (see the list of Common Special Items below), while army-specific Special Items can be found in the corresponding Army Books. In case of Multipart Models, these upgrades can only be bought for the model part with a Special Item allowance.

All Special Items are **One of a Kind** unless specifically stated otherwise.

### Special Item Categories

All Special Items belong to one of the following categories:

- Weapon Enchantments
- Armour Enchantments
- Banner Enchantments
- Artefacts

Each category of Special Items is subject to the rules below.

#### Weapon Enchantments

Weapon Enchantments are upgrades to weapons. The upgraded mundane weapon is referred to as enchanted weapon and follows all rules for both the original weapon and the Weapon Enchantment. The following rules apply to Weapon Enchantments and enchanted weapons:

- A model may only have a single Weapon Enchantment.
- If a model has more than one weapon, it must be noted on the Army List which weapon has been enchanted (remember that all models are equipped with a Hand Weapon).
- Each Weapon Enchantment applies to a specific weapon (e.g. a Great Weapon) or a category of weapons (e.g. Close Combat Weapons). Note that Shooting Weapons that count as a Close Combat Weapon in close combat (such as a Brace of Pistols from the Empire of Sonnstahl Army Book) cannot normally be Enchanted with a Close Combat Weapon enchantment.
- A model armed with an enchanted weapon (including a Hand Weapon) must use it if possible.

#### Armour Enchantments

Armour Enchantments are upgrades to Armour Equipment. The upgraded mundane armour is referred to as enchanted armour and follows the rules for both the

original Armour Equipment and the Armour Enchantment. The following rules apply to Armour Enchantments and enchanted armour:

- Each piece of armour a model is carrying may be enchanted with a single Armour Enchantment.
- If the wearer has more than one piece of armour that could be enchanted, it must be noted on the Army List which one has been enchanted. If a model has no Armour Equipment, it cannot take Armour Enchantments.
- Each Armour Enchantment applies to a specific piece of armour (e.g. Heavy Armour) or a category of armour (e.g. Suits of Armour).

#### Banner Enchantments

Banner Enchantments are upgrades to Standard Bearers and Battle Standard Bearers. The upgraded banner is referred to as enchanted banner. Each banner may normally only have a single Banner Enchantment, except for Battle Standard Bearers, who may take up to two Banner Enchantments.

#### Artefacts

A model may have up to two Artefacts.

### Properties of Special Items

#### Dominant

A model may only have a single Dominant Special Item.

#### Who is Affected

Special Items may affect different targets:

- The wielder, wearer, or bearer: these terms mean the same thing for rules purposes and refer to the model part the Special Item was bought for (and don't affect its mount).
- Models, the wearer's model, or the bearer's model: these terms refer to all model parts of the models, including their mounts (note that these terms override the Massive Bulk rules).
- Units, the wearer's unit, or the bearer's unit: this type of Special Item affects all model parts in the target unit or in the same unit as the wearer/bearer of the Special Item (including mounts and the wearer/bearer itself).

### List of Common Special Items

The Special Items listed below are considered Common Special Items and are available to all models and units who have the option to buy Special Items from the corresponding category. They are often bought in addition to army-specific Special Items.
