Army Specific Rules

War Cry!

Once per game, at the start of a Player Turn, an Orcs and Goblins General on the Battlefield may utter a War Cry!. All friendly units gain +1" Advance Rate, +2" March Rate, and **Swiftstride** until the end of the Player Turn.

Army Model Rules

Greenhide Races

Certain units in this Army Book belong to or must choose a Greenhide Race. A model with a Greenhide Race gains the rules detailed below. In addition, units that choose a Greenhide Race use the Defensive and Offensive Characteristics of the corresponding Greenhide Race (if specified) and gain access to specific options, as detailed in each unit entry.

Common Orc

The model part gains **Born to Fight**.

Feral Orc

The model part gains **Battle Focus** and **Born to Fight**. The model gains **Aegis (6+)**, **Fearless**, and **Frenzy**.

Iron Orc

The model part gains **Born to Fight** and **Weapon Master**. The model gains **Fearless**.

Common Goblin

The model gains **Insignificant**.

Cave Goblin

The model gains **Insignificant**.

Forest Goblin

The model gains **Insignificant** and **Strider (Forest)**.

Universal Rules

Nets

At the start of each Round of Combat, each unit with one or more models with Nets must choose one enemy unit in base contact and roll a D6. On 2+, the chosen unit is Netted. On a roll of '1', the unit with Nets is Netted. Units Netted one or more times suffer -1 Strength and -1 Armour Penetration until the end of the Round of Combat.

Oi it bites!

Units with models with Oi it bites! cannot be joined by Characters.

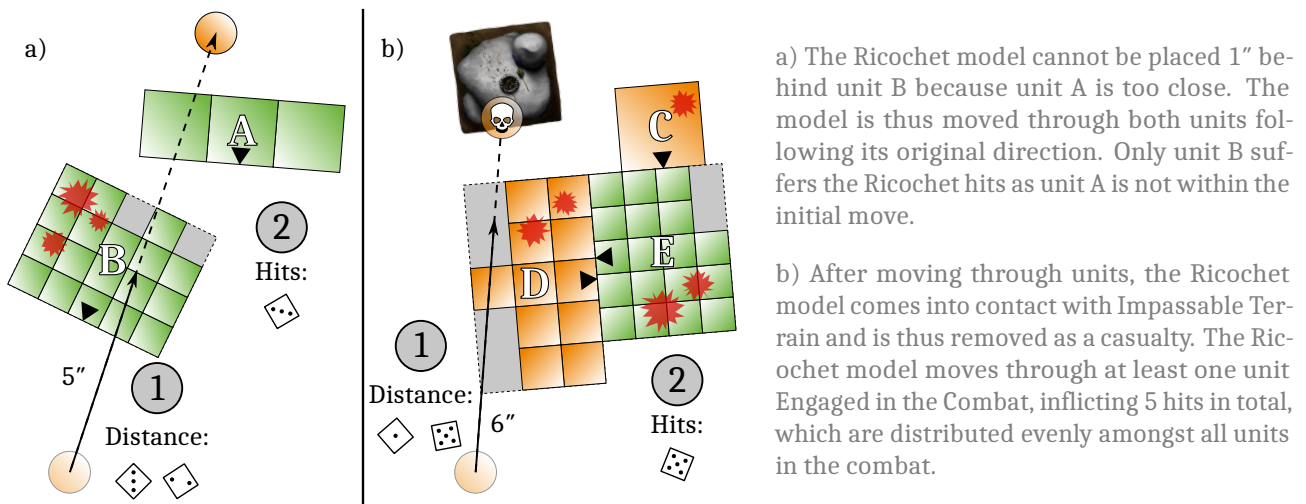

Ricochet [X]

Models with Ricochet cannot Charge enemy units and can move through all units (friend and foe) as if they were Open Terrain. If its move is ended in contact with another unit, or within 1" of a unit that it has moved through, its move distance is extended; keep moving the model in the same direction (still moving through other units) until it can be placed 1" away from all other units. If, after an extended move, the model would end up within 1" of Impassable Terrain or in contact with the Board Edge, immediately remove the model as a casualty. If there is no legal position where it follows the Unit Spacing rule when backtracking the model's move (based on the rules for Random Movement), immediately remove the model as a casualty.

If a unit's Unit Boundary is contacted by a Ricochet model's initial move (i.e. excluding an extension of the move distance needed to clear units), this unit suffers X hits, where X corresponds to the value given in brackets (after completing the move). For this purpose, all units Engaged in the same Combat are treated as a single unit. The owner of the model with Ricochet distributes the hits between all units Engaged in this Combat as evenly as possible (after this, follow the normal rules for distributing hits to models within each unit).

Enemy units cannot Charge models with Ricochet. Units (friend and foe) ignore models with Ricochet regarding the Unit Spacing rule for all movement (including Ambush). In addition, they can move onto and through models with Ricochet. However, if a unit moves into contact with a Ricochet model, it immediately (before completing the move) suffers X+D6 hits, and the model with Ricochet is removed as a casualty. This is not triggered by moves that can move through units normally (e.g. Flying Movement), unless the move is ended in contact (note that units can move into contact with multiple Ricochet models simultaneously).

Hits are resolved with the Strength and Armour Penetration of the model with Ricochet.

Running Amok!!

When a unit with Running Amok!! moves using Random Movement, it must move in a random direction instead of the chosen direction.

Shambolic

Units with Shambolic models cannot be joined by Characters. When rolling the distance of a Random Movement move with a Shambolic unit, if all the dice show the same result, the unit loses D3 Health Points (with no saves of any kind allowed), and then moves in a random direction instead of the chosen direction. When units with Shambolic touch the Board Edge, stop 1" away from Impassable Terrain, or come into contact with or move inside any Terrain Feature other than Open Terrain or Hills, all models in the unit must take a Dangerous Terrain (2) Test.

Attack Attributes

Born to Fight – Close Combat

The model part's Close Combat Attacks gain +1 Strength and +1 Armour Penetration during a Round of Combat:

- If it is the First Round of Combat.
- Or if the model part's unit is Steadfast while not suffering from Disrupted Ranks at the start of the Round of Combat.

Venomous Fangs – Close Combat

Before rolling to hit, nominate one Close Combat Attack from a model part with Venomous Fangs. This attack gains **Multiple Wounds (D3+1)**. If the attack is turned into more than one hit (e.g. a hit with Battle Focus), only a single hit, chosen by the owner, gains the effect.

Special Attacks

Mammoth Stabber

If the unit is Charging and has at least one Full Rank, nominate a single R&F model in the unit at Initiative Step 10. This model gains **Impact Hits (D3)** until the end of the Round of Combat. These Impact Hits are resolved with Strength 5, Armour Penetration 2, and **Multiple Wounds (D3+1, against Towering Presence)**.

Hereditary Spell

<i>Casting Value</i>	<i>Range</i>	<i>Type</i>	<i>Duration</i>	<i>Effect</i>
H Bring the Pain 8+	18"	Hex	One Turn	Failed to-hit rolls with Close Combat Attacks against the target must be rerolled.

Special Items

Weapon Enchantments

Omen of the Apocalypse 125 pts
Enchantment: Hand Weapon.
Roll a single D3 at the Initiative Step in which the wielder is attacking. During this Initiative Step, the wielder gains a modifier equal to the result of the D3 roll to its Attack Value, Strength, and Armour Penetration while using this weapon. Attacks made with this weapon become **Magical Attacks**.

Shady Shanking 50 pts
Enchantment: Hand Weapon or Paired Weapons.
Attacks made with this weapon gain **Lethal Strike**, **Lightning Reflexes**, and become **Magical Attacks**. When fighting a Duel, failed to-wound rolls with attacks **made** with this weapon **must** be rerolled.

Maza's Zappin 45 pts
Enchantment: Bow.
The wielder's unit gains **Quick to Fire**.
This Bow gains Aim (2+), and its profile is changed to: Range 24", Shots 3, Str as user, AP as user, **Magical Attacks**.

Armour Enchantments

Tuktek's Guard 55 pts
Standard and Large Height models only.
Enchantment: Suit of Armour.
The wearer's model gains +1 Resilience. In addition, attacks against the wearer's model with Lethal Strike lose this Attack Attribute.

Banner Enchantments

Mikinok's Totem 95 pts

Cannot be taken by units that count towards Core.

At the start of each Round of Combat, choose one of the following:

- A Special Item* carried by a Character or Champion in a single enemy unit in base contact with the bearer's unit.
- A Special Item* carried by a single model unit in base contact with the bearer's unit.
- A Banner Enchantment carried by a Standard Bearer in a single enemy unit in base contact with the bearer's unit.

The effects of this Special Item* are ignored during this Round of Combat.

*Or, when fighting a Dwarven Holds army, a combination of Runic Weapon Enchantments, Runic Armour Enchantments, or Runic Artefacts.

Green Tide 50 pts

0-3 per Army.

The bearer's unit gains **Fight in Extra Rank**.

Artefacts

Crown of the Cavern King 90 pts

Cannot be taken by models with Towering Presence.

All models in the bearer's unit that have at least one model part of the Greenhide Races Common Goblin, Cave Goblin, or Forest Goblin gain **Feigned Flight** and **Vanguard**. If the bearer is a Common Goblin, Cave Goblin, or Forest Goblin, the range of its Commanding Presence and Rally Around the Flag (if available) is increased by 6".

Skull Fetish 70 pts

Dominant. Wizards only.

At the start of any friendly Magic Phase, add X Veil Tokens to your pool, where X is the number of friendly units Engaged in Combat minus the number of friendly Fleeing units. You cannot gain more than 3 Veil Tokens this way. These tokens are in addition to Veil Tokens gained from other sources. The Skull Fetish can never cause a loss of Veil Tokens.

Pan of Protection Pinchin' 40 pts

When successfully wounded, the bearer may choose to use the attacker's Armour value and/or its Special Save:

- Use the Armour value that the attacking model would have against the attack that inflicted the wound (including Conditional Application, modifiers, etc.). If so, the bearer cannot use its own Armour (including any modifiers), if available.
- Use the Special Save that the attacking model would have against the attack that inflicted the wound (including Conditional Application, modifiers, etc.). If so, the bearer cannot use its own Special Save (including any modifiers), if available.

In addition, when the bearer's unit is the target of a spell, the bearer gains the same Magic Resistance as the Caster of the spell.

Troll Ale Flask 30 pts

The bearer may perform a Special Attack that is made at the bearer's Agility. In the corresponding Initiative Step, choose an enemy unit that the bearer is able to attack with Close Combat Attacks. This unit suffers a hit with Strength 5 and Armour Penetration 10.

Optional Model Rules

Power 'Shroom: Universal Rule.

Each instance of Power 'Shroom is One use Only. Declare usage immediately before the model rolls to cast a non-Bound Spell. Any Dispelling Attempt made against this Casting Attempt suffers a -D3 Dispelling Modifier. Roll this dice directly when using the Power 'Shroom. If a natural '1' is rolled for this D3, the model using the Power 'Shroom suffers 1 hit with Toxic Attacks. Only a single instance of Power 'Shroom can be used per Casting Attempt. This is an exception to the Casting and Dispelling Modifier rule (i.e. it is allowed to modify the dispelling roll by more than -2).

Model Rules

Sneaky!: Universal Rule.

In the First Round of Combat, the model gains +3 Agility and **Lightning Reflexes**. It is a Champion that is deployed in the unit for which it was purchased. However, it gains neither First Among Equals nor Order the Charge, nor any model rules that the other R&F models in its unit may have, unless specifically stated otherwise. It is not forced to choose the same Close Combat Weapon in close combat as the other R&F models in its unit.

Mad Git

This model is an optional additional model for Goblins units.

Offensive	Att	Off	Str	AP	Agi
Mad Git		0	5	3	3 Cave Goblin

Model Rules

Surprise!: Universal Rule.

The model is not deployed normally. Instead it is said to be concealed inside the unit for which it was purchased. It is a unit upgrade, and as such is ignored when calculating Victory Points (its Point Cost is already included in the Goblin unit concealing it, and Victory Points are awarded for destroying the unit concealing it). Until released and moved out of its unit, the model cannot be harmed or otherwise affected, or affect the game in any way. When it is removed as a casualty, it does not cause Panic Tests. It still moves, acts, and is influenced by all rules independently like a normal unit (once released) and does not count towards the model count of the unit concealing it.

It can be released in two ways:

- Mad Gits may be released when their unit declares a Stand and Shoot Charge Reaction with a Shooting Weapon (the unit still shoots as normal). If the unit does not have any Shooting Weapons, it may declare a Stand and Shoot Charge Reaction with Mad Gits. If so, all Mad Gits in the unit must be released. This is not considered a Shooting Attack.
- At the start of the owner's Shooting Phase, if a unit with one or more concealed Mad Gits is not Engaged in Combat, not Fleeing, and is within 8" of an enemy unit, it **must** immediately release all its Mad Gits.

Resolve released Mad Gits one at a time. Place the released Mad Git just outside of base contact with the concealing unit and choose a direction to move the model in (ignore the Mad Git's Running Amok!!). This cannot be a direction that can potentially bring the released Mad Git into contact with its concealing unit. When releasing the Mad Git, move it in the chosen direction using the Shambolic rules. During this move, rolling the same result on all dice does not cause the Mad Git to lose D3 Health Points nor move in a random direction.

Stupid: Universal Rule.

At the start of each friendly Player Turn, each unengaged non-Fleeing unit with one or more models with Stupid must take a Discipline Test. If the test is failed, all models in the unit become Shaken until the end of the Player Turn with the following exception: in the Movement Phase, immediately after Rallying Fleeing units, the unit must perform an Advance Move of D6" as far directly forwards as possible.

Troll Belch: Special Attack.

At the model part's Initiative Step, the owner may choose an enemy unit that the model part is able to attack with Close Combat Attacks. If so, this unit suffers a hit that is resolved with Strength 5 and Armour Penetration 10, and the model part with Troll Belch may not perform any Close Combat Attacks during this Round of Combat.
