# Army Specific Rules

## War Cry!

One use only. May be activated at the start of any friendly Player Turn, provided the General is on the Battlefield and not Fleeing. Apply the following effects until the [end-of-the-start of the next friendly](#) Player Turn:

- All friendly units gain +1" Advance Rate and +2" March Rate.
- If the General is a Goblin Demagogue or a Goblin Witch, all friendly units consisting entirely of models with Goblin Cunning, while not Engaged in Combat, gain **Light Troops** and lose Scoring.
- If the General is an Orc Warlord or an Orc Shaman, all friendly units consisting entirely of models with Brood Rivalry gain **Maximised (Charge Range)**.

# Army Model Rules

## Universal Rules

### Beloved Mascots

Models without Beloved Mascots but with Goblin Cunning or Brood Rivalry gain **Hatred** against enemy units in base contact with one or more friendly models with Beloved Mascots.

### Brood Alpha

Units with Brood Alpha **must** buy a Champion upgrade if available. Champions with Brood Alpha gain +1 Health Point [up to a maximum of 4](#) and +1 Attack Value, their Discipline is **set** to 7, and they gain a Great Weapon. [In case of Multipart Models, the Attack Value modifier only affects a single model part without Harnessed or Inanimate.](#) Champions with Brood Alpha can choose different Close Combat Weapons than other R&F models in their unit.

### Brood Rivalry

Model parts without Harnessed gain +1 Attack Value while both the following conditions are met:

- The model's unit contains one or more R&F models.
- A model with Brood Rivalry from another friendly unit is Engaged in Combat anywhere on the Battlefield.

### Creepy-Crawlies

The model gains **Ghost Step**, and model parts with Harnessed gain **Poison Attacks**.

### Darrmu

If the General is a Darrmu, apply the following changes to Army List creation:

- Max. 10% of the Army Points may be spent on units with Brood Rivalry.
- The Duplication Limits "0-X Units/Army", "0-X Models/Army", and "0-X per Army" in the unit profiles of certain units with Goblin Cunning are modified, as indicated by "D 0-X". For example, "0-1 (D 0-2) Units/Army" means that if the General is a Darrmu, the Duplication Limit becomes "0-2 Units/Army".

### Goblin Cunning

Apply the following rules to any unit consisting entirely of models with Goblin Cunning:

- It gains **Maximised (Flee Distance)**.
- Before rolling any dice [for the corresponding test](#), it may choose to fail any Break Tests and, unless more than half its models are Fearless, [any](#) Panic Tests.

- If it Flees due to a voluntary Flee Charge Reaction or due to choosing to fail a Panic or Break Test, it automatically passes its next Rally Test. This does not apply if the unit is Decimated or if it Flees involuntarily.

## Tribe Leader

If the General is a Tribe Leader, apply the following changes to Army List creation:

- Max. 10% of the Army Points may be spent on units with Goblin Cunning.
- The Duplication Limits “0-X Units/Army”, “0-X Models/Army”, and “0-X per Army” in the unit profiles of certain units with Brood Rivalry are modified, as indicated by “TL 0-X”. For example, “0-1 (TL 0-2) Units/Army” means that if the General is a Tribe Leader, the Duplication Limit becomes “0-2 Units/Army”.

## Attack Attributes

### Crude Weapons

Apply the following rules after the First Round of Combat until the model is no longer Engaged in Combat:

- The model cannot benefit from Parry.
- All its weapons count as Hand Weapons for all rules purposes.

## Special Attacks

### Force of Destruction [X]

The model cannot declare any Charges, and other units cannot declare any Charges against the model. The model and other units ignore each other regarding the Unit Spacing rule for all movement and can touch and move through one another during any movement (note that this includes Ambush). When the model touches another unit, the model is immediately removed as a casualty, and the other unit immediately suffers X hits with the model’s Strength and Armour Penetration. If several units are touched simultaneously, the Active Player chooses which unit suffers the hits. If the model was removed due to another unit moving into contact with it, that unit suffers an additional D6 hits.

# Hereditary Spell

The Orcs and Goblins Hereditary Spell is divided into two versions, each of which can only be cast by a certain Wizard, as specified in the spell description.

<i>Type</i>	<i>Duration</i>	<i>Casting Value</i>	<i>Range</i>
<b>H Guile and Fury</b>	One Turn	8+	18"
Augment	<del>Can only be cast by Orc Shamans</del> Cannot be cast by Goblin Witches. The target gains <b>+1</b> to hit, and its Charge Range, Flee Distance, Pursuit Distance, and Overrun Distance are <b>increased</b> by 1".
