# Army Model Rules

## Favours of the Dark Gods

A Character with a Favour cannot join a unit that contains any models with a different Favour.

**Favour of Kuulima, Goddess of Envy**  
Attack Attribute – Close Combat

The model gains **Swiftstride**. In addition, a Charging model part with this Attack Attribute **must** reroll any natural to-hit rolls of '1'. Units with all of their models with this Favour **must** reroll any natural rolls of '1' when rolling for Charge Range.

**Favour of Akaan, God of Gluttony**  
Attack Attribute – Close Combat

The first time a model with this Favour successfully Charges a Fleeing unit, or is on the winning side of a combat and does not Pursue or Overrun, its Close Combat Attacks from model parts with this Favour gain +1 Strength (the effect lasts for the duration of the game).

**Favour of Sugulag, God of Greed**  
Universal Rule

The **model part** gains Great Weapon, Halberd, Paired Weapons, and **Weapon Master**. The Special Item allowance of Characters with this Favour is increased by 50 pts.

**Favour of Cibaresh, God of Lust**  
Universal Rule

The model gains **Strider**. In addition, units with more than half of their models with this Favour are subject to the following rules:

- They gain **Feigned Flight**.
- They may declare Flee as a Charge Reaction even if they have Fearless.
- Their Rally Test in their next Player Turn after voluntarily declaring Flee as a Charge Reaction is subject to Minimised Roll. This does not apply if a unit fails to rally on the next friendly Player Turn or Flees involuntarily.

**Favour of Savar, God of Pride**  
Universal Rule

Discipline Tests taken by units with at least one model with this Favour are subject to Minimised Roll.

**Favour of Nukuja, Goddess of Sloth**  
Universal Rule

Models with this Favour gain +1 Resilience. If a model with this Favour declares a Charge against an enemy unit that is more than 10"\* away or performs an Advance or March Move of more than 10"\*, this effect is lost until the start of the Melee Phase in the next Player Turn.

\*These distances are decreased to 6" if the model is Gigantic.

**Favour of Vanadra, Goddess of Wrath**  
Attack Attribute – Close Combat

The model part gains **Lightning Reflexes** and +1 Agility. Close Combat Attacks allocated towards the model gain +1 to hit. These effects are only applied in the First Round of Combat.

## Universal Rules

### Battle Fever

Units with more than half of their models with Battle Fever **must** reroll failed Panic and Break Tests.

### Irredeemable

The model cannot make Stomp Attacks and, when in the second rank and not in base contact with any enemy models, can make Grind Attacks across models in the first rank directly in front of it. When a model with Irredeemable is killed by a Melee Attack, remove it as a casualty only at the end of Initiative Step 0. A unit with at least one model with Irredeemable may never have more ranks than files.

### Legendary Beasts (X)

The sum of the Legendary Beasts values stated in brackets of all models in the army is restricted to 1 per 750 Army Points, rounding fractions up.

### Path of the Exiled

Units with more than half of their models with Path of the Exiled **must** reroll failed Break Tests. At the end of step 7 of a Round of Combat (after taking Break Tests), models with Path of the Exiled in a unit that failed a Break Test simultaneously perform Close Combat Attacks (ignoring the rules for Initiative Order, but otherwise following the normal rules such as Supporting Attacks and Allocating Attacks). Afterwards, they are removed as casualties. Models with Path of the Exiled cannot join or be joined by models with Path of the Favoured.

### Path of the Favoured

Units with more than half of their models with Path of the Favoured **must** reroll failed Break Tests. In addition, model parts with Path of the Favoured upgraded to a Champion gain +1 Health Point to a maximum of 3, and their Discipline is **set** to 9.

### Trophy Rack

The **model's** unit may reroll failed Discipline Tests unless Fleeing. Each time attacks made by the **model** kill an enemy model that it is fighting a Duel with, the **model** gains a +1 Combat Score modifier for the rest of the game (this also applies to attacks made outside the Melee Phase). In addition, the **model** may take a single Banner Enchantment (using the bearer's Special Item allowance as normal).

### Veil Walker

When a model with Veil Walker casts a non-Bound Spell, you may discard a single Veil Token when declaring the target(s) of the spell and activate one of the following effects:

- *Secret of Flesh*: Failed to-wound rolls from this spell that occur during a Magic Phase **must** be rerolled.
- *Secret of Separation*: The spell's range is increased by 6". Aura spells only gain +3" range. Spells with type Caster are unaffected.
- *Secret of Substance*: Successful Armour Saves against wounds caused by this spell's effect **must** be rerolled.

## Personal Protections

### Unburnt

Successful to-wound rolls of attacks that are Flaming Attacks made against the model **must** be rerolled. In addition, the model considers all units consisting entirely of models without Unburnt as Insignificant.

## Armoury

### Hell-Forged Armour – Armour Equipment

Plate Armour. The wearer's model gains **Aegis (5+, against Toxic Attacks)**.

### Spiked Shield – Armour Equipment

Models on foot only.

Shield. For each **successful** Armour Save roll of **4+** made by the **model part** against an **enemy** Melee Attack while using a Spiked Shield, the **model part** immediately inflicts 1 hit with **its** Strength and Armour Penetration **on** the model that caused the wound, before any casualties are removed, distributed onto the model's Health Pool. This is considered a Special Attack.

# Hereditary Spell

Casting Value	Range	Type	Duration	Effect
<b>H Hellfire</b> (6+) {10+}	18"	Damage* Direct Hex	Instant	The target suffers (2D3) {2D6} hits with Strength 6, Armour Penetration 0, and Magical Attacks.

\*The spell can target units Engaged and in base contact with the Caster's Front Facing.

## Special Items

### Weapon Enchantments

**Burning Portent** 130 pts  
Enchantment: Hand Weapon.  
Attacks made with this weapon become **Flaming Attacks** and **Magical Attacks**, gain **Multiple Wounds (D3)**, and their Armour Penetration is **set** to 10.

**Symbol of Slaughter** 35 pts  
Enchantment: Hand Weapon and Paired Weapons.  
While using this weapon, the wielder gains +2 Attack Value, +2 Agility, and **Magical Attacks**. Close Combat Attacks made against the wielder's model gain +1 to hit.

### Armour Enchantments

**Thrice-Forged** 60 pts  
Enchantment: Suit of Armour.  
The wearer gains +3 Armour. If the wearer's model has Towering Presence, its Armour can **never** be improved beyond 5.

**Gladiator's Spirit** 40 pts  
Enchantment: Suit of Armour.  
The wearer gains +1 Armour and **Parry**.

### Banner Enchantments

**Zealots' Banner** 50 pts  
0-3 per Army.  
The maximum number of Supporting Attacks that models in the second rank of the bearer's unit can perform is increased by 1.

**Icon of the Infinite** 35 pts  
0-2 per Army. Cannot be taken by units that count towards Core.  
The bearer can cast *Hellfire* (Hereditary Spell) as a Bound Spell with Power Level (4/8).

**Wasteland Torch** 30 pts  
The bearer's unit gains **Strider (Ruins)**. After determining Deployment Zones (at the end of step 6 of the Pre-Game Sequence), you may choose a single Field or Forest Terrain Feature that becomes Ruins. The bearer's unit gains **Flaming Attacks** in the First Round of Combat.

### Artefacts

**Ledger of Souls** 65 pts  
Dominant.  
Immediately before removing a friendly model without Insignificant in a unit within 9" of the bearer's model due to enemy attacks, you gain one Veil Token for each Health Point that model had the first time it entered the Battlefield.

**Immortal Gauntlets** 45 pts  
At the start of any Round of Combat, you may discard a Veil Token from your Veil Token pool. If so, choose either Divine Attacks, Flaming Attacks, or Magical Attacks. The bearer's Close Combat Attacks gain the chosen Attack Attribute. The chosen effect lasts until the end of the phase.

**Lord of the Damned** 35 pts  
Sorcerers, Doomlords, and Shrine Priests only.  
Any unit with Irredeemable within 18" of the bearer's model may reroll the distance it moves in the Movement Phase with Random Movement.

**Wyrd Stone** 15 pts  
One use only. **Must** be activated when the bearer's model suffers the first hit in the game. This hit is ignored. If the bearer is hit by several simultaneous attacks, the bearer chooses which attack to ignore.

**Veilgate Orb** 10 pts  
At the end of Siphon the Veil, the army may keep up to 6 Veil Tokens instead of the normal 3.

#### Damnation: Universal Rule.

The unit cannot be joined by any Characters, and it may never have more ranks than files. When the unit fails a Break Test, it does not perform the extra Close Combat Attacks from Path of the Exiled. Instead replace each model of the unit with a Wretched One model after step 8 of the Round of Combat Sequence (after taking Panic Tests):

- The unit with Damnation is considered destroyed and its models are considered to be removed as casualties.
- Each Wretched One model is placed in the same position and facing the same direction as the replaced model, even if the replaced model was in base contact with an enemy unit. In this case, the Wretched One model is placed in base contact with the enemy unit too.
- The Wretched One models form a new unit.
- The Wretched One unit follows the rules for Summoned Units, except that it ignores the Unit Spacing rule when placed on the Battlefield.
- The Wretched One unit cannot perform any Combat Reforms during that Round of Combat, however the enemy units can do so as normal.
- Note that the following Round of Combat is not considered the First Round of Combat for the Wretched One unit nor the enemy units it is Engaged with.

Options — pts —

One choice only:

One <b>Ominous Gateway</b>	100
Two <b>Ominous Gateways</b>	200

Model Rules

**Gateway:** Universal Rule.

At the end of each friendly Magic Phase, each Hellmaw may do one of the following:

- **Open a Gateway:** Mark a single point on the Battlefield with a Gateway Marker. This point **must** be within Line of Sight and 24" of the Hellmaw, and more than 6" away from enemy units. There can never be more than 4 friendly Gateway Markers on the Battlefield (including Ominous Gateways).
- **Close a Gateway:** Choose a friendly Gateway Marker with its centre within Line of Sight and 24" of the Hellmaw. All units within 6" of the centre of the marker suffer D6 hits with **Toxic Attacks** and **Magical Attacks**. Then remove the marker.  
If all friendly Hellmaws have been removed as casualties, immediately close all friendly Gateways as described above.

A friendly unit may choose to enter the Gateway if all the following conditions are met:

- The unit does not contain any Gigantic models.
- The unit is in contact with the centre of a friendly Gateway Marker.
- All models in the unit just performed an Advance or March Move and no other model has moved since.

Remove the unit from the Battlefield. The unit:

1. Is then placed back on the Battlefield within 3" of the centre of any other friendly Gateway Marker. No model can end up with its centre farther away than its March Rate from the centre of the chosen marker.
2. **Must** have the same formation, but may face any direction.
3. **Must** follow the Unit Spacing rule.
4. Suffers D6 + X hits with **Toxic Attacks** and **Magical Attacks**, distributed by the owner, where X is equal to the number of ranks in the unit. Hits distributed onto models with Hell-Forged Armour or Supernal automatically fail to wound.
5. Loses Scoring until its next Player Turn.

Only a single unit may exit the same Gateway Marker in each Player Turn.

Optional Model Rules

**Ominous Gateway:** Universal Rule.

0–2 per Army.

At the start of step 7 of the Pre-Game Sequence (Spell Selection), for each Ominous Gateway in your army, mark a point on the Battlefield outside the opponent's Deployment Zone with a Gateway Marker.
